Proposal submitted respectfully by PDG Dr. Himansu Basu,M.D.,PhD on behalf of members and advocates of Rotarian Vocational Alliance for Saving Mothers and Babies , for consultation and action – ***we would be grateful to receive your support for membership and action, reflective comments ,guidance and suggestions.***

APPENDIX A :

CALMED (COLLABORATIVE ACTION IN LOWERING OF MATERNITY ENCOUNTERED DESATHS) – STRUCTURED VOCATIONAL TRAINING IN CHILDBIRTH EMERGENCIES - ADDITIONAL SUPPORT FROM DIGITAL TECHNOLOGY AND SIMULATION

Guiding Principles:

Structured Training Packages:

1. Training and evaluation by an experienced Faculty of potential master trainers' knowledge, skills, behaviour and their ability to train others (**Training the Trainers**).
2. **Supervision and mentoring** of qualified master trainers who go on to train and retrain basic trainees (doctors and nurses).
3. **Peer to peer communication and training**
4. **Repeat Training by Master Trainers**– low volume, high frequency
5. **In-situ training** – skills training in hospital environment

Why Structured Training? – *relate to local needs and priorities: We train/empower individuals and groups (found deficient on needs assessment)*

1. Health care professionals (Doctors, Midwives, Nurses)- Emergency care of mother and new-born
2. Community Health Activists – community awareness of pregnancy and childbirth related issues
3. Ambulance Crew – emergency resuscitation before transfer of mother/baby to institutions
4. Health Administrators – training in data collection, review of maternal /child deaths (MPDSR) and data management
5. Pregnant women's Groups – elements of self-care and support, group antenatal care

PROMOTING HIGH IMPACT VOCATIONAL SERVICE IN MCH - AN INVITATION

Training Aids: High impact training aids are used for training, retraining, in-situ simulation

1. Low cost Simulators – Mama Natalie, Neo-Natalie, Mama U, Resusci Anne etc.
2. Pictorial Flip Charts
3. Training Films
4. Cell phone-based technology
5. Flash Drives
6. Tele Medicine (Optional)

Funding and Resource implications: The Alliance is an advisory body providing strategic guidance, provision of manpower and other resources for structured training.

- 1 Administrative costs - will be derived from possible membership dues and from grants approved for programme implementation (administrative expenses)
- 2 Programme costs -partnership with Government, NGOs and philanthropic Foundations are other possible sources of funding the work of the Alliance, additional to the Rotary Foundation.

Benefit/Output : Empowerment through

1. Improvement of knowledge and skills in delivering emergency care
2. Increased number of skilled health care workers
3. Behavioural changes -respect, recognition of the serious impact of delays in care of mothers and babies (needing emergency care) and action thereof
4. Raised community awareness of childbirth related issues
5. Development of Community ownership of the programme principles – Educate, Empower, Evaluate
